

New Testing Sites: The Mayor and Health Commissioner today announced new testing sites in Philadelphia.

The Philadelphia Department of Public Health, along with the Health Federation of Philadelphia, is working with Federally Qualified Health Centers (FQHC) in Philadelphia to expand testing capabilities in underserved communities. Under this plan, the Department of Public Health will provide testing supplies and personal protective equipment (PPE), as able, to FQHCs that agree to:

- Expand COVID-19 testing to maximize the ability of current FQHC patients and non-FQHC patients to be tested.
- Make testing available at least three days per week and preferably five days per week.
- Make available to the public the phone number and/or website link with relevant information for persons to understand how to schedule a test.
- Provide the Department of Public Health with regular data on the number of persons tested.
- Use PPE in accordance with the Department of Public Health's recommended conservation strategies.

Recommended criteria for testing eligibility are:

- Age 50+ and symptomatic.
- People under 50 who are at high risk for severe illness due to chronic conditions and are symptomatic.
- Health care workers (defined broadly) who are symptomatic or are asymptomatic with close contact with a confirmed COVID-19 case.

The following FQHCs have opted in to expand testing per the criteria described above.

The Family Practice & Counseling Network (FPCN)

- Phone number for scheduling: [\(215\) 843-9720](tel:2158439720)
- Planned start date for expanded testing: Wednesday, April 29, 2020
- Testing days: Every Wednesday at the Health Annex
- Testing hours: TBD

Currently offering testing to patients at three locations:
